

Visitors Questionnaire Results (6,596 Respondents)

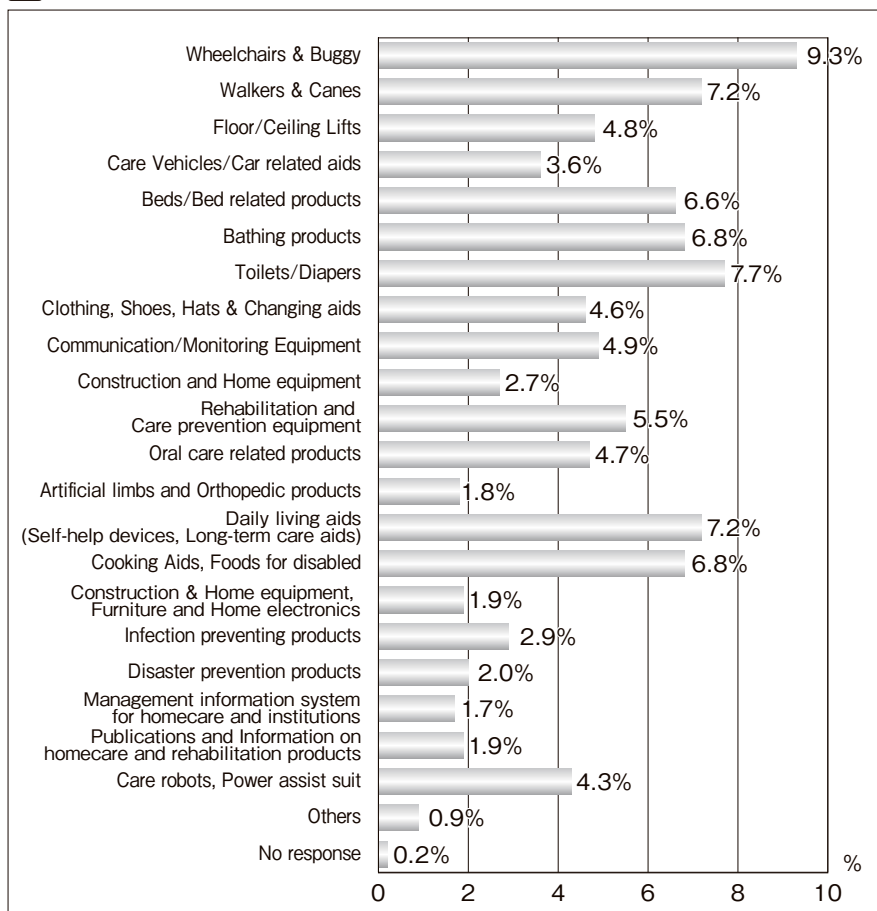

1 Purpose for visiting H.C.R. 2016 (Part I) (Multiple responses)

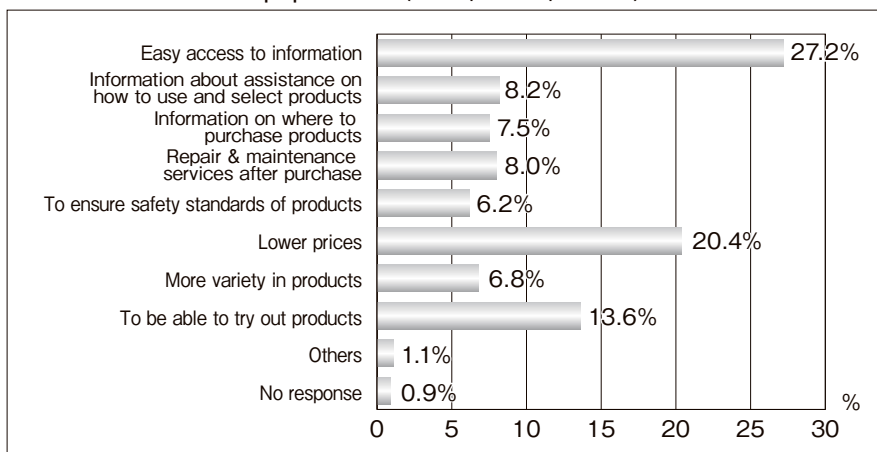

2 Purpose for visiting H.C.R. 2016 (Part II) (Multiple responses)

3 What types of products were you looking for? (Multiple responses)

4 Do you have any requests on the use of homecare and rehabilitation equipment? (Multiple responses)

5 Visitor's Comments on Homecare and Rehabilitation Equipment

- I expect more improvement in designing products especially in the color design.
- As I can see a remarkable progress in systematizing the work process with technology at welfare facilities, I hope further development.
- I want more variations in ranges of rental items.
- I want more opportunities to try out products at H.C.R.
- Products against low back pain for care-givers need to be familiarized actively.
- I want more information about places where we can touch and try equipment freely in our community.
- I feel the uniform for staff of care institutions became stylish and very agreeable.
- The prices of exhibition products were not clear. Please indicate the "information price" of all products in H.C.R. Website.
- Please provide an sales information of second hand welfare equipment.
- It would be helpful if wide selection of rental equipment is available for patients of the first day of hospitalization.
- I expect further development of equipment that promotes the independent life of users and enhances the continuation of their lives.
- Welfare equipment drew much attention through the Rio Paralympic this year. I hope I will be able to boast about the quality of Japanese welfare equipment to the world through Tokyo Paralympic 2020.
- I think manufacturers should pay more attentions to the easiness for using equipment.
- I can't accept the direction that the persons who need light-degree of care won't be able to have a service of welfare equipment rental.
- The cutting-edge equipment such as a care robotic may be important however I want to know more about equipment which supports our daily life.
- A DVD handling manual will be needed for devices required some skills of know-how.
- I feel very disappointed that I still couldn't find an equipment exactly fit to me.
- I want more information about lease shops in our neighborhood.
- As I am very large, I can't find many choices of equipment suit to my size.
- The introduction of a useful equipment under the theme of "community cooperation" will be attractive.
- Each product of different manufacturers has its merit as well as demerit so how about collaborating to produce one with these manufacturers?
- I want equipment for promoting accessibility to the places of daily necessities such as a supermarket, etc.

6 Visitor's Comments on H.C.R. 2016

- The information and knowledges gained at the H.C.R. will be useful for my workplace and I'm sure I will be able to suggest better equipment to our users.
- There was a new encounter at the exhibition site and I could get new information for buying a car.
- I'm happy because I could know how to get a piece for my equipment which I have been searching for long time.
- I learned about the latest information of the daily care robot and its development.
- Direct contact with the manufacturer at the show was an important chance and I'm glad to have had a chance of wheelchair trial ride.
- I could ask about the usage of equipment which has been already installed in my place also I could compare with the latest equipment for future considerations.
- I suggest the organizer and manufactures to develop or inform equipment for home care suit to a small house or an apartment.
- There are many tips to solve problems in my life.
- I could find a play equipment for children.
- This is a precious occasion where we can compare several products and the outcome of manufacturers.
- I received many useful information through seminars and events at the show.
- Trial of a wheelchair or a walking assist suit was a good experience and for considering introduction in the future.
- I learned there were many communication equipment. Those are very interesting but expensive.
- An equipment for nursing care is getting increased every year and an equipment for persons with disabilities is shrinking. I hope to increase especially the equipment for children with disabilities.
- I felt the wave of the IT for the welfare field.
- Some exhibitors provided visitors the service of "catalogue delivery" and that was very helpful.
- The quality of products became higher and practical.
